CAPITAL AND SURPLUS, - - $450,000

THESE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farm risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,

CASH CAPITAL OVER - - $1,900,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

The solid service long and successfully tried, and the many advantages the Ætna Insurance Company possess in its line, should not be overlooked by those ready to insure and understanding their best interests.

During "stringent times" the necessity for reliable Insurance becomes an imperative duty—the ability of property holders to sustain loss being then much lessened.

THESE popular Bitters possess all the nourishing and invigorating properties of Pure Old Bourbon Whiskey, and are considered the most efficacious Tonic and Stimulant, as well as the most agreeable Stomachic ever offered to the public. As a Tonic for Old People, delicate Ladies, convalescent invalids, and all weakly people, they cannot be surpassed: in all cases of Weakness or Debility, they will give immediate relief, and impart a strong healthy tone to the system. A trial will establish their merits over all other Tonics now in use. For Lung Complaints, Bronchitis, Dyspepsia, Nervous Diseases and Liver Complaints, they are an invaluable Remedy; and are a certain preventative of Chills and Fevers.

Put up in Quart Bottles, in cases of one and two dozen, and for sale by Druggists and Grocers everywhere.

CAPITAL AND SURPLUS, - - $400,000

THE above are *First Class, justly popular, and prompt paying* companies. We invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic*, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and firms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,
CASH CAPITAL OVER - - $1,900,000
all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

A Matter of Interest to the Citizens of Janesville.

It is generally known by our citizens that the trains of the Galena & Chicago railroad company are no longer permitted to run to this city over the track of the Milwaukee & Mississippi railroad, from the *junction at Hanover*. The causes that have induced the M. & M. company to refuse this permission we are not disposed to investigate, as we understand they no longer exist. But we conceive it to be our duty to call the attention of the people of this city to the effects which will grow out of a continuance of the present state of things.

The exclusion of the Galena company from this city cannot but be regretted by all. The officers and employees of that company have, in their business relations with our citizens, always manifested, so far as we know or have heard, a liberal spirit. They have been accommodating and generous toward all, and it is with much regret that we look forward to the prospect of their permanent removal from our midst. Several of the gentlemen connected with this road, have purchased property here and erected homes for themselves and their families, expecting to make this their *permanent residence*. Their withdrawal, and the sale of their property is a positive damage to the city, while it prevents others from locating within our *midst*, who might in the future become connected with the Galena road. This is one of the effects of the exclusion of the Galena road.

Another and a more serious disadvantage to the business of our city will arise from the competition in the grain trade in the towns west of us. It is well known that the Galena company have long entertained a design of completing their road to Madison. It has been finished as far as Footville and graded a considerable distance further north. We understand that the officers of the road have been examining the route with a view of recommencing the work which has been suspended for a long time. Their exclusion from Janesville naturally turns their attention again to this project, and it would not surprise us at all, if they should now push it forward to completion. Indeed, we cannot see what else they can do, if this exclusion is to be permanent. Without it the heavy investment in their Beloit branch will be a loss.

The effect of this exclusion is beginning already to be felt in the purchase of grain at Hanover and Footville. To the latter place they have heretofore had only special *freight trains*; *now they are running their regular trains* to that point and putting down the tariff on grain to induce purchasers to buy their grain there. Let the road be extended north into Magnolia and Union, and there will be other stations in those towns which will enter into the same business, and thus cut off trade which would naturally come to Janesville. There will then be a competition between the Galena road and the Milwaukee & Mississippi road for the freight of the country between Evansville and Edgerton. Thus the competition of these roads for business will take place at different points north and west of Janesville. We shall then be almost surrounded by competing points on the three railroads which are striving for the business of this section. It is easy to see that the effect of all this will be disastrous to our city. It is here that the competition should have its focus, instead of being spread out all around, among the small railroad stations, *east, west* and north of us. If the railroad arrangements are permitted, *by our people, to be* made entirely by those who have no interest in the welfare of Janesville, this will be the result.

We have thus briefly called the attention of our citizens to some of the effects which are likely to grow out of the exclusion of the Galena company from any participation in the trade of Janesville. It is a matter which requires the *immediate attention of* our business men. Delays are always dangerous; in this case they are particularly so, and prompt action is needed. We understand that the business relations of the Galena and Milwaukee & Mississippi companies are now on the same footing that they were some weeks ago, in regard to their Mississippi freight and passenger trade; and this being so, there is no good reason why permission should not be given by the *Milwaukee & Mississippi company for the* running of the trains of the Galena company into this city from Hanover, upon the same terms as formerly. We are inclined to think that the Mississippi company would accede to a request of that kind, if made by our citizens; and if they should do so we have the assurance of the superintendant of the Galena company that they would resume the running of their trains to this city as formerly. A letter embodying such a request, to the officers of the Milwaukee & Mississippi company, signed by our citizens generally, or by the mayor and council, might be tried. If this should not succeed, other steps might be taken, such as the nature of the case required.

☞ The "Constitutional Union Convention" will meet at Baltimore on the 9th inst., (next Wednesday,) for the nomination of candidates for president and vice president of the United States. We hear it intimated in knowing quarters that Gen. Sam. Houston will be granted the first place *on the ticket, with Washington Hunt*, of New York, as vice.

Election of President by the House.

It has become a matter of interest to know what would be the effect of a failure to elect a president by the electors chosen by the people. In such a case the choice would devolve on the house of representative—the present house. The vote is taken by states—each state casting one vote only. Rhode Island would cast one vote and New York no more. If Kansas should be admitted in time there will be 34 states to vote and 18 will be required to make a choice. If Kansas should not be admitted 17 would elect.

The republicans may count on 15 states, viz: Connecticut, Indiana, Iowa, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont and Wisconsin; or 16 with Kansas.

The democrats control 14 states, viz: Alabama, Arkansas, California, Delaware, Florida, Georgia, Illinois, Lousiana, Mississippi, Missouri, Oregon, South Carolina, Texas and *Virginia*.

The Americans have two states: Maryland and Tennessee; and two are equally divided between democrats and Americans: Kentucky and North Carolina. So that with Kansas in, and 18 necessary for a choice, the result would be:

Republicans,	16
Democrats,	14
Americans,	2
Tied,	2
	34

Without Kansas, 17 being necessary to elect, the republicans would have 15—two short of an election.

Should the democrats combine with their own vote those of Maryland, Kentucky, Tennessee and North Carolina, an election would be made. But the recent contest for speaker shows how unlikely that event is.—The probability of the republicans securing either two of those states is *also remote*.

No election of president taking place, either by the electors or the house of representatives, the vice president become president *ex officio*. That office also failing of an election in the electoral college, would be chosen by the senate from the two candidates having the most electoral votes. As the senate would vote in the usual way, and not by states, the democrats would elect on the first ballot.

When Jefferson was elected by the house there were 16 states and 9 were necessary for a choice. On 35 ballots the vote stood each time: Jefferson 8, Burr 6, tied 2.—On the 36th ballot Jefferson had 10 states; Burr 4, blank 2.

In 1824, John Quincy Adams was chosen president by the house of representatives. There were then 24 states: Mr. Adams received in the house the votes of 13, Gen. Jackson 7, Mr. Crawford 4.—*Albany Jour.*

Census of 1860--Questions to Answer.

On the first of June the work of taking the census commences. It is desirable that it be taken with great accuracy, and to enable the assistant marshals who will be engaged in the performance of his duty, to have their work well done, it has been suggested that the publication of the questions necessary for all heads of families to answer, would be of great benefit. With this view we publish the following list:

In the first place it is necessary to write down the name of every person whose usual place of abode, on the first day of June, 1860, was in the family.

The age of each, sex and color, whether white, black or mulatto.

Value of real estate owned.

Place of birth, naming the state, territory or country.

Married within the year.

Attending school within the year.

Persons over twenty years of age that cannot read or write.

Whether deaf and dumb, blind, insane or idiot, pauper or convict.

Name of the owner, agent or manager of the farm.

Number of improved acres.

Number of unimproved acres.

Cash value of farm.

Value of farming implements and machinery.

The Defeat of Douglas at Charleston.—The Cincinnati Gazette says: "The adjournment of the convention is an humiliating confession of defeat on the part of Douglas and his adherents.

The retreat will be as disastrous as that of Napoleon from Moscow. With all the flourish of a conqueror, the Little Giant entered Charleston. He fought his opponents inch by inch, and gained hard won victories, that were more fatal than defeats.

At last he succeeded in driving his *strongest* opponents from the convention, and just at the moment he thought all was secure, the victory proved to be barren.—His camp followers saw no rewards before them. Defection and mutiny began to threaten; and to save everything from the wreck, an ignominious flight became necessary.

That is substantially the history of the Charleston convention and its adjournment."

The Great Comet.—A Dutch astronomer announces that the great comet of Charles V. will make its re-appearance in August next.

Telegraphic

REPORTED FOR THE MORNING GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, *Office in Union Passenger Depot.*

Farther Point, May 6.

The steamship Bohemian, from Liverpool, 25th, via Queenstown, 26th, passed this point at 4:30, P. M. to-day, en route for Quebec.

The steamer Illinois, from New York, arrived *at Southampton on the morning of* the 23d.

A report that Heenan had died of erysipelas proved to be utterly unfounded.

Heenan, on the 22d, writes to the London Times: "I see by your article of Saturday that you misunderstand my wishes, and it does me great injustice. I have no difference to settle with Sayers except such as I tried to settle with him on the 16th; and, instead of being called a "boy," I ought to be termed a baby, *if, after having come so* far, and not having got a settlement, I should be willing to relinquish my purpose for a few good-natured pats on the back, and being told I am a fine fellow. I have read a great many anonymous letters asking if I am not "ashamed of myself—a great fellow like me to come over to whip a little man like Sayers." Under ordinary circumstances I should not think of sending a challenge to a man of Sayers' size; but *England thinks him big enough to defend* the belt. I want it, and cannot get it except through him. The enclosed letter, which I sent to Bell's Life, when I heard that they intended to call in the surgeon to name the day before which Sayers could not finish the pending affair, will show my position; and, as Bell's Life has not published it, you will do me a great kindness by letting the English people hear what I have to say. If the late battle is not to be resumed, and the belt is *not to come to me for what has* already taken place, I claim to be first on the list to meet Sayers again for the next chance to conquer it.

The following is the letter to Bell's Life:

Not having been able to obtain from you as referee the final decision upon the fight of Tuesday last, I desire to demand through you a *new meeting* within the present week. I make this demand from having been informed that it is suggested on your part that I should give Sayers sufficient time to recover from certain injuries received by him. Now, sir, while I am willing to accommodate him in any proper way, I must not be unmindful of my own rights; I also received injuries, but I bargained for them, and I put to you as a man of honor, whether if I had been deprived through the *effect of the said fight, of my eye sight* or the use of my arm as in the case of Brettle, when disabled by Sayers, you would have made Sayers wait for me any length of time that might be dictated by my private doctor. When these matches were made the date of the battle was the 16th, or as soon as we could get to fight; and according to the rules if the battle should be interrupted, it was my understanding and I believe it is the law that we should fight within a week. *We did meet according to contract*; the battle which is said to be unfinished, I am prepared to renew it any moment, within lawful limits. If Sayers on account of injuries received from me, is unable, and cannot meet me according to the rules of manly opposition, I demand and claim that he resign to me the belt, which he is not according to the rules of the prize ring entitled to retain. Hoping to receive an answer from you before the week expires *stating your views in full*, *I am, &c.*

P. S.—You will please understand I don't wish to fight because he is represented to be in a disabled condition, but I wish to obtain what I think I have already won, and which I will cheerfully hand back whenever he or any other person thinks he can take it from me.

Two hundred pounds are said to have been subscribed in Liverpool by American captains for the benefit of Heenan.

The Market.

New York, May 7.

Flour market quiet and unchanged.—5,55a5,90 common to medium extra western; Rye flour 3,60a4,70; Wheat market shade better with export enquiry, sales 22,000 bush. 1,29½ for No. 1 Chicago spring; 1,29a1,30 Milwaukee club; Rye quiet, 86; Barley dull; Corn shade better with more export demand; Oats 1c better with fair export demand; 42a43 Canada and state.

Jury Discharged.—The Madison Patriot says that the jury in the case against Wm. C. Webb, disagreed, and the judge discharged them. Webb was charged with having forged the name of Babcock to the documents necessary to get a loan from the school fund on a lot of land in Waushara county. As the defendant was a member of the bar, he was allowed to address the jury in his own behalf, which he did with much confidence.

The Railroads and the Chicago Convention—Half Fare.—We learned late on Saturday evening last that the Chicago and Milwaukee, the Chicago and Northwestern, the Galena and Chicago Union, and the Chicago, Burlington and Quincy roads have determined to carry passengers to and from Chicago during the sitting of the national republican convention, at half-fare. This will be good news to our republican friends living on and near to the lines of the above roads; and we doubt not the *aggregate receipts of the roads* will be largely augmented by their liberality in the premises. We did not hear from the Rock Island, the St. Louis, and the Illinois Central on Saturday evening, but we are quite certain they will come promptly into the half-fare arrangement. All the lines of road leading from the east into this city have previously announced the issuing of half-fare tickets; and we also learn that the Cincinnati, Hamilton and Dayton, the Indianapolis and Cincinnati, the Dayton and Michigan, the Lafayette and Indianapolis, the New Albany and Salem, and the Detroit and Milwaukee roads have all come into the arrangement. With such inducements to visit our city, we think the number of strangers that will be here during convention week will be unprecedented. They may rest assured of a hearty, generous welcome. *Chicago Tribune.*

Diligence.—Whatever you do, do with all your might. Work, if necessary, early and late, in season and out of season, not leaving a stone unturned, and never deferring for a single hour that which can just as well be done now. The old proverb is full of meaning: "Whatever is worth doing is worth doing well." Many a man acquires a fortune by doing his business thoroughly, while his neighbor remains poor for life, because he only half does his business. Ambition, energy, industry and perseverance, are indispensable requisites for success in business.

☞True to the Letter.—The price paid for a newspaper is like seed sown in the ground; it brings back a thousand fold its value. Some people, however, don't believe it. They think a dollar and a half or two dollars a year, paid for a newspaper, is so much paid for a luxury, where in truth it is a prime necessity. In a family without a newspaper, children are brought up without a knowledge of this world and its concerns.

Mormons in Ohio—The Kirtland Temple to be Revived.

It is well known that shortly after Joe Smith discovered the "gold plates" near Palmyra, New York, and organized the now extensive and powerful sect known as the Mormons, he and his followers removed to Kirtland, Lake county, Ohio, which had been designated as *the* "Land of Zion," and erected a "Temple of the Latter Day Saints," which was completed and dedicated in the autumn of 1834. Here it was that the "Prophet" Smith assumed temporal as well as spiritual power, and as he felt his power increasing he continued introducing new doctrines and practices until 1836, when the doctrine of polygamy was bronched by one Sidney Rigdon, a pettifogging lawyer, who had become connected with the society. This was violently opposed by numerous members of the society, headed by one Elder Rich. The Church refused to sanction polygamy, but which it is said both Smith and Rigdon practiced then in a quiet way. The land speculations of the Mormons in that vicinity resulted in numerous lawsuits and quarrels, and these, together with an attempted murder by the Mormons, of one Grandison Newell, still a resident of Lake county, created such a hostile feeling between the Mormons and the *people* of the *surrounding* country that the "Prophet" Smith and his disciples removed, in 1839, to Illinois.

A few of the faithful, including Elder Rich, who had opposed the latter innovations in doctrine, refused to leave "Zion," and to their hands, therefore, was committed the care of the Temple. Of these, about a dozen people are left, who remain under the spiritual care of Elder Rich, before mentioned. They have remained faithful to the doctrines of the Church as at first taught, loathe and abhor the corrupt practices and doctrines of the Salt Lake Mormons, and await in patience the regeneration of the Church, and its return to the promised Zion. Of this ultimate return to Kirtland they have not the slightest doubt. It has been revealed to them, and cannot, therefore, be doubted.

A short time since, a son of the Prophet Joe Smith was formally installed at Amboy, Lee county, Illinois, as "Prophet, Seer and Revelator in Zion" of the Reformed Mormon Church. The Mormons of Illinois claim that they have received a message from the Lord to again assemble in Kirtland and build up the city of Zion, and young Joe Smith is looked to as the Prophet who is to lead the renowned Church to power and *glory*.

The Temple at Kirtland is built of stone, in a substantial manner, and contains two lofty stories, besides a large attic, and a deep cellar the whole length of the building. A cupola surmounts a high roof and affords one of the finest views in Ohio. A short time ago we visited this celebrated Temple and were "ciceroned" by a venerable and red-eyed Mormon, who has clung to the Temple and corn whisky ever since Joe Smith left for Nauvoo. His only occupation for several years has been to show strangers the wonders of the Temple, the change he picks up in that capacity enabling him to keep his "keg" full the most of the time. The inside of the building presents a dilapidated appearance. The sacred desks of the priests and elders are nearly demolished; Joe Smith's pulpit is hacked to pieces by the defacing knives of "relic hunters;" the walls are scrawled with the names of hundreds of *visitors, and the* elaborate moulding and gilded letters with which the interior was profusely ornamented, have nearly all been stolen. Town meetings, lectures, concerts, &c., have been held there for a number of years, and occasionally, during the winter, the wide and lofty halls resound to the lively notes of the violin, as the beauty and chivalry of Kirtland and vicinity join in the festive dance by the light of numerous tallow chandeliers. If the Reformed *Mormons again set their "stake"* at Kirtland, the Temple will be refitted.—*Sandusky Register.*

The Merry Wives of San Francisco.

The French *Phare is responsible* for the truth of the following story:

Two French ladies of this city took a notion to visit the Japanese corvette, but to their great disappointment, learned that ladies were not admitted on board. They were daughters of Eve, however, and were not to be baulked; and accordingly after two days of *planning*, they *surmounted* all difficulties. By the favor of their husbands, who humored the merry curiosity of their spouses, everything was prepared; and on Friday morning five gentlemen of very gallant bearing, were placed on board the corvette. They were received very cordially, and at the request of one of the youngest they were presented to the Admiral, who learning that they were French gentlemen, had them point out upon the map the position of France—*all of which, as it were*, introduced subjects for conversation, which only wanted facility of mutual understanding language to make it complete.

As our gentlemen were about to depart, instead of a formal and ceremonious adieu, they reached forth their hands. Suddenly the Admiral stopped; he held in his own hand that of the youngest of his visitors, and he seemed, by a searching glance, to discover a profound mystery. His eyes ran *from one to the other of our* five compatriots, but finally became, as it were, fixed on the youngest two, who evidently attracted all his attention. He seemed to be ravished, made his visitors re enter, invited them to dine, and astonished even himself with his exquisite politeness.

After the repast two servants made their appearance with a basket, in which were various fancy articles. The Admiral took out three beautiful cigar cases, three small pipes, and three papers of *tobacco*, which he offered to the oldest visitors. He then took out two magnificent fans, two golden hair pins, and two coral bracelets, and advancing, presented them to the youngest visitors, at the same time saying in bad English, that although a Japanese, he was still a man, and that he never touched the hand of a lady, but he felt affected.

The young visitors blushed at first, but soon commenced laughing, and confessed that they were indeed ladies; but the pleasure of visiting the Japanese had induced them to don the male attire. They then presented their *husbands to the Admiral*; a half hour longer was spent in conversation and laughter; and when the time of separation came it was regretted by all. A carriage was waiting upon the wharf for our fair visitors, and they were driven away highly delighted with their adventure.

Le Phare concludes the story by saying that there are three morals in it, and that the reader shall take that which he likes best.

Hens and Eggs.—For several years past I have spent a few weeks of August on the Kennebec river, in Maine. The lady with whom I have stopped is a highly accomplished and intelligent housewife. She supports a hennery, and from her I derived *my* information in the matter. She told me that for many years she had been in the habit of administering to her hens, with their common food, at the rate of a teaspoonful of cayenne pepper each alternate day, to a dozen fowls. Last season, when I was with her, each morning she brought in from 12 to 14 eggs, having but sixteen hens in all. She again and again experimented in the matter by omitting to feed with cayenne for two *or three days*. The *consequence* invariably was that the product of eggs fell off five or six per day. The same effect of using cayenne is produced in winter as well as summer.—*Boston Transcript.*

Muscular Strength.—The muscular strength of the human body is wonderful.—A Turkish porter will trot at a rapid pace, and carry a weight of six hundred pounds. Nilo, a celebrated athlete of Cretona, in Italy, accustomed himself to carry the greatest burdens, and by degrees became a monster in strength. It is said that he carried on his shoulder an ox, four years old, and weighing upwards of one thousand pounds, and afterwards killed him with one blow of his fist. He was *seven times crowned* at the Pythian games, and six at the Olympic. He presented himself the seventh time, but no one had the courage to enter the list against him. He was one of the disciples of Pythagoras, and to his uncommon strength that preceptor and his pupils owed their lives. The pillar which supported the roof of the house suddenly gave way, but Milo supported the roof of the building and gave the philosopher time to escape. In old age he attempted to pull up a tree by the roots and break it. He partially effected it, but his strength being gradually exhausted, the tree where cleft united, and left his hand pinched in the body of it. He was then alone, and unable to disengage himself, died in that position. Haller mentions that he saw a man, whose finger caught in a chain at the bottom of the mine, by keeping it forcibly bent, supported, by that means, the whole weight of the body, one hundred and fifty pounds, until he was drawn up to the surface, a distance of six hundred feet. Augustus II, king of Poland, could roll up a silver plate like a sheet of paper, and twist the strongest horse-shoe asunder. A lion is said to have left the impression of his teeth upon a piece of solid iron. The most prodigious power of muscle is exhibited by the fish. The whale moves with a velocity, through a dense medium, water, that would carry him around the world in *less than a fortnight*. A sword fish has been known to strike his weapon through the thick plank of a ship; a specimen of such a plank, with the sword of the fish sticking in it, may be seen in the British Museum.

The editor of the Savannah Republican, writing from Charleston, says of the convention:

"The report sent gives but a faint idea of the spirit and manner that characterized the action of the convention. It opened boisterous, and instead of a harmonious party, assembled through their delegates to give expression to the popular will, it appeared more like two contending armies, inflamed with mutual suspicions, jealousies and wrongs, and each intent upon the overthrow and demolition of the other. The convention sat until about three o'clock, and the very worst spirit prevailed throughout the session. In two minutes after the close of the preliminary prayer (which, by the way was most unconscionable in its length) the entire body was thrown into an uproar and 'confusion worse confounded.'"

Starvation stares the residents of Middle Tennessee in the face. The editor of the Nashville Christian Advocate complains that he has to pay forty cents a pound for all the butter used in his family, and thought himself particularly fortunate the other day in getting a "jackfish" for half a dollar. That fish furnished him a breakfast, but he says *it is rarely that he can afford to buy a cabbage* or a salad for dinner,—cabbages and other light and nutritious vegetables having been sadly neglected by the Tennessee farmers. Secular papers confirm these melancholy representations of the clergy, and if things don't mend, we shall have to send provisions over the railroads to that desert region, just as we fed Ireland by the shipload in '47.

The American Millionaire.—Mr. Wm. B. Astor, is worth at least $25,000,000, and every cent of income, over and above expenses and charities, is immediately reinvested. Mr. A. is still a hale and hearty looking man, and will probably live to be as old as his father. He has an office, where he works harder than a dry goods clerk. Six or seven gentlemen act as book-keepers, but he holds the thread of the complicated skein in his own hand. And yet, such is one of the peculiar phases in the history of all rich men's lives, he will leave this gay world and all its possessions, the temporary owner of a plat of ground only 6 feet by 3. That's all he gets for his trouble.

A Chapter on Mad Dogs.—Mr. Dorwith, who was bitten by a mad dog, has gone to Chicago to receive every aid that medicine can give to overcome any evil effect which might, if not properly treated, develop itself in future.

John M. Delap, of the town of Freedom in this county, was bitten by another mad dog on Friday last, but we hear nothing further of his case. It is supposed that a large number of animals were also bitten by the same vicious canine.

A mad dog excitement was occasioned in Reedsburgh last Sunday by the appearance of one of these scourges of society, which was speedily dispatched, but not until it had bitten four other dogs esteemed valuable by their owners, and a cow belonging to Mr. Warren. A general slaughter, not only of the dogs bitten, but of the uncollared portion of *caninity*, has followed.—*Baraboo Republic.*

Taken Care of.—About four years ago a party of Indians from Rock river, having a little white girl in their possession, established a camp near this place. Suspicion being entertained that the girl had been stolen, a dozen or so of the citizens of the Prairie turned out and took her away from them. She was given in charge of a family, some distance out of town, with whom she lived until last week. Sunday night she run away to a neighbor's, on account of long continued ill usage, and yesterday was brought to town by Col. Jno. Thompson and placed in kinder hands. She is now 11 years old, speaks nothing but French, and is an ordinarily intelligent looking child.—We hope the little thing's troubles have about ended, and that hereafter she will be well cared for.—*Prairie du Chien Leader.*

Heavy Robbery of a Country Merchant—$500 Reward Offered for the Thief.—On Tuesday night, about half past ten o'clock, Mr. Henry S. White, of Tremont, Tazewell county, arrived in this city on his way to the east, and finding his old quarters, the Sherman House, deserted and being torn down, went to the New York House, obtained a room and retired to rest. Mr. White, who is a merchant at Tremont, had with him, in a carpet bag, $7,800 taken, which he intended to convert into New York exchange here. Mr. White had also a smaller sum of money, about $400, in his pantaloons pocket, and some $2,000 in railroad shares, in his coat pocket. The room was cold and Mr. White, after carefully placing his carpet bag at the foot of the bed, covered it with clothes, laid down in his pantaloons, and went to sleep.

Yesterday morning he woke up and after dressing picked up his carpet bag, when to his horror he discovered that it had been slit open, and the whole of $7,800 taken! The door of his room was not disturbed, but he saw that the window of his apartment was immediately above the roof of a small building, by means of which an entrance might easily have been effected into the room. The money in his pantaloons' pocket and the railroad stock was not taken. Eleven hundred dollars of the money taken were in one hundred dollar bills on the bank of America. Mr. White offers a reward of $500 for the apprehension of the robber or the recovery of the money. The matter was placed in the hands of a skillful detective yesterday, but up to last night, no clue to the thief had been obtained.—*Chicago Democrat.*

A Rich Man's Daughter and his Servant Girl Run Away with a Pickpocket.—On Wednesday last, the daughter of Mr. Kohlhammar, a well-to-do citizen of Milwaukee, and well known as a wholesale flour dealer, together with his servant girl, ran away from that city. The Chicago Journal has the particulars, and says that the servant girl, who had made the acquaintance of a noted pickpocket in Chicago, received a letter from him a few days since, urging her to get together all the money she could and go to Chicago, and if possible take Mr. K.'s daughter with her.

The daughter, who is a very respectable girl, and quite a lady in her appearance, prevailed upon by the wiles of the servant girl, took $80 of her father's money and went to Chicago on Wednesday with the servant girl, who had managed to get $35 out of her own folks. They first went to a boarding house at the corner of La Salle and Michigan streets, in that city, but remained there only one night, and the next day went to No. 421 Canal street.

The father in the mean time went on in hot pursuit of the fugitives, and officer Walker was put on their track. By waiting at the Chicago depot, and following up their trunks, he discovered their whereabouts, arrested them and gave them over to the father, who departed Thursday night with the runaways for Milwaukee. The daughter evidently was the victim of those foolish romantic notions about eloping, which are so prevalent now a days, instilled into the youth of our country by the Sylvanus Cobb literature of the land, while the servant girl, destitute of the romance, was making a practical thing of it, by getting together all the money she could and joining her "lovyer" the pickpocket.

The Beard.—A writer in the Lynn Reporter says:

The deaths by consumption have decreased some fifty per cent. per annum among the stone cutters of Quincy, Milton, Rockport, and the marble works of Vermont, since they have ceased shaving, and given nature her sway in matters she may be supposed to understand. Workmen in western flour mills; colliers in the numerous mines of the middle states; miners at Galena, Dubuque and the copper regions of Lake Superior; employees in drug mills, drivers, engineers, arctic navigators; residents in low wet countries, and thousands of artisans whose employment is prejudicial to healthy lungs, generally wear the mustache as a *sanitary* rather than an ornamental appendage to the face of manhood.

MOST EXTRAORDINARY RESULTS
FROM THE USE OF
WINCHESTER'S GENUINE
Hypophosphites
IN THE CURE OF CONSUMPTION.

I need only call the attention of all Consumptive sufferers, whether in advanced or the incipient stage of the disease, to the following extract from a letter addressed to me by a physician of great experience, and extensive practice in Chester Co., Pa. The voluntary evidence of professional men, such as that of Dr. Townsend, ought to convince the most skeptical of the extraordinary efficacy of my preparation of Hypophosphites:

CHATHAM, PA., 3d Month, 26th, 1860.

FRIEND J. WINCHESTER:— * * Thirty-six persons have obtained the medicine from me, twelve of whom have been under my own care. Five of them were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irritable cough, copious expectorations of a purulent character, night sweats and emaciation. These cases were from one to three years' standing. Auscultation and percussion developed sounds which, taken in connection with other symptoms, gave evidence of a condition from which I have never, in seventeen years' practice, seen a single case recover by any other treatment. * * Under the use of the Hypophosphites, all the bad symptoms ceased; they have gained flesh and strength and health—some of them better than they had enjoyed for seven years previously.

The other cases under my care were in the incipient stage, and in them all symptoms and traces of the disease have disappeared. Of those who were not under my care, I have not heard of a single patient who himself benefitted by the use of the remedy, although in some of them the disease was too far advanced to admit the possibility of recovery.

I presume I am as skeptical in medicines or specifics as most physicians; yet, from the experience I have had in the use of Dr. J. F. Churchill's Remedy for Tuberculosis, I would say to all who have a tendency to that disease—take it, and the sooner the better, before there is any disorganization. * * *

They increase the nervous or vital energy, relieve cough, check night sweats, diminish expectoration, improve the appetite, arrest diarrhoea, promote refreshing sleep, and create new and healthful blood. A fair trial is a certain cure.

A Matter of Interest to the Citizens of Janesville.

It is generally known by our citizens that the trains of the Galena & Chicago railroad company are no longer permitted to run to this city over the track of the Milwaukee & Mississippi railroad, from the junction at Hanover. The causes that have induced the M. & M. company to refuse this permission we are not disposed to investigate, as we understand they no longer exist. But we conceive it to be our duty to call the attention of the people of this city to the effects which will grow out of a continuance of the present state of things.

The exclusion of the Galena company from this city cannot but be regretted by all. The officers and employees of that company have, in their business relations with our citizens, always manifested, so far as we know or have heard, a liberal spirit. They have been accommodating and generous toward all, and it is with much regret that we look forward to the prospect of their permanent removal from our midst. Several of the gentlemen connected with this road, have purchased property here and erected homes for themselves and their families, expecting to make this their permanent residence. Their withdrawal, and the sale of their property is a positive damage to the city, while it prevents others from locating within our midst, who might in the future become connected with the Galena road. This is one of the effects of the exclusion of the Galena road.

Another and a more serious disadvantage to the business of our city will arise from the competition in the grain trade in the towns west of us. It is well known that the Galena company have long entertained a design of completing their road to Madison. It has been finished as far as Footville and graded a considerable distance further north. We understand that the officers of the road have been examining the route with a view of recommencing the work which has been suspended for a long time. Their exclusion from Janesville naturally turns their attention again to this project, and it would not surprise us at all, if they should now push it forward to completion. Indeed, we cannot see what else they can do, if this exclusion is to be permanent. Without it the heavy investment in their Beloit branch will be a loss.

The effect of this exclusion is beginning already to be felt in the purchase of grain at Hanover and Footville. To the latter place they have heretofore had only special freight trains; now they are running their regular trains to that point and putting down the tariff on grain to induce purchasers to buy their grain there. Let the road be extended north into Magnolia and Union, and there will be other stations in those towns which will enter into the same business, and thus cut off trade which would naturally come to Janesville. There will then be a competition between the Galena road and the Milwaukee & Mississippi road for the freight of the country between Evansville and Edgerton. Thus the competition of these roads for business will take place at different points north and west of Janesville. We shall then be almost surrounded by competing points on the three railroads which are striving for the business of this section. It is easy to see that the effect of all this will be disastrous to our city. It is here that the competition should have its focus, instead of being spread out all around, among the small railroad statons, east, west and north of us. If the railroad arrangements are permitted, by our people, to be made entirely by those who have no interest in the welfare of Janesville, this will be the result.

We have thus briefly called the attention of our citizens to some of the effects which are likely to grow out of the exclusion of the Galena company from any participation in the trade of Janesville. It is a matter which requires the immediate attention of our business men. Delays are always dangerous; in this case they are particularly so, and prompt action is needed. We understand that the business relations of the Galena and Milwaukee & Mississippi companies are now on the same footing that they were some weeks ago, in regard to their Mississippi freight and passenger trade; and this being so, there is no good reason why permission should not be given by the Milwaukee & Mississippi company for the running of the trains of the Galena company into this city from Hanover, upon the same terms as formerly. We are inclined to think that the Mississippi company would accede to a request of that kind, if made by our citizens; and if they should do so we have the assurance of the superintendant of the Galena company that they would resume the running of their trains to this city as formerly. A letter embodying such a request, to the officers of the Milwaukee & Mississippi company, signed by our citizens generally, or by the mayor and council, might be tried. If this should not succeed, other steps might be taken, such as the nature of the case required.

☞ The "Constitutional Union Convention" will meet at Baltimore on the 9th inst., (next Wednesday,) for the nomination of candidates for president and vice president of the United States. We hear it intimated in knowing quarters that Gen. Sam. Houston will be granted the first place on the ticket, with Washington Hunt, of New York, as vice.

Election of President by the House.

It has become a matter of interest to know what would be the effect of a failure to elect a president by the electors chosen by the people. In such a case the choice would devolve on the house of representative—the present house. The vote is taken by states—each state casting one vote only. Rhode Island would cast one vote and New York no more. If Kansas should be admitted in time there will be 34 states to vote and 18 will be required to make a choice. If Kansas should not be admitted 17 would elect.

The republicans may count on 15 states, viz: Connecticut, Indiana, Iowa, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont and Wisconsin; or 16 with Kansas.

The democrats control 14 states, viz: Alabama, Arkansas, California, Delaware, Florida, Georgia, Illinois, Lousiana, Mississippi, Missouri, Oregon, South Carolina, Texas and Virginia.

The Americans have two states: Maryland and Tennessee; and two are equally divided between democrats and Americans: Kentucky and North Carolina. So that with Kansas in, and 18 necessary for a choice, the result would be:

Republicans,	16
Democrats,	14
Americans,	2
Tied,	2
	34

Without Kansas, 17 being necessary to elect, the republicans would have 15—two short of an election.

Should the democrats combine with their own vote those of Maryland, Kentucky, Tennessee and North Carolina, an election would be made. But the recent contest for speaker shows how unlikely that event is.—The probability of the republicans securing either two of those states is also remote.

No election of president taking place, either by the electors or the house of representatives, the vice president become president *ex officio*. That office also failing or an election in the electoral college, would be chosen by the senate from the two candidates having the most electoral votes. As the senate would vote in the usual way, and not by states, the democrats would elect on the first ballot.

When Jefferson was elected by the house there were 16 states and 9 were necessary for a choice. On 35 ballots the vote stood each time: Jefferson 8, Burr 6, tied 2.—On the 36th ballot Jefferson had 10 states; Burr 4, blank 2.

In 1824, John Quincy Adams was chosen president by the house of representatives. There were then 24 states: Mr. Adams received in the house the votes of 13, Gen. Jackson 7, Mr. Crawford 4.—*Albany Jour.*

Census of 1860--Questions to Answer.

On the first of June the work of taking the census commences. It is desirable that it be taken with great accuracy, and to enable the assistant marshals who will be engaged in the performance of his duty, to have their work well done, it has been suggested that the publication of the questions necessary for all heads of families to answer, would be of great benefit. With this view we publish the following list:

The Defeat of Douglas at Charleston.—The Cincinnati Gazette says: "The adjournment of the convention is an humiliating confession of defeat on the part of Douglas and his adherents.

The retreat will be as disastrous as that of Napoleon from Moscow. With all the flourish of a conqueror, the Little Giant entered Charleston. He fought his opponents inch by inch, and gained hard won victories, that were more fatal than defeats.

At last he succeeded in driving his strongest opponents from the convention, and just at the moment he thought all was secure, the victory proved to be barren.—His camp followers saw no rewards before them. Defection and mutiny began to threaten; and to save everything from the wreck, an ignominious flight became necessary.

That is substantially the history of the Charleston convention and its adjournment."

The Great Comet.—A Dutch astronomer announces that the great comet of Charles V. will make its re-appearance in August next.

REPORTED FOR THE MORNING GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE,
Office in Union Passenger Depot.

FARTHER POINT, May 6.

The steamship Bohemian, from Liverpool, 25th, via Queenstown, 26th, passed this point at 4:30, P. M. to-day, en route for Quebec.

The steamer Illinois, from New York, arrived at Southampton on the morning of the 23d.

A report that Heenan had died of erysipelas proved to be utterly unfounded.

Heenan, on the 22d, writes to the London Times: "I see by your article of Saturday that you misunderstand my wishes, and it does me great injustice. I have no difference to settle with Sayers except such as I tried to settle with him on the 16th; and, instead of being called a "boy," I ought to be termed a baby, if, after having come so far, and not having got a settlement, I should be willing to relinquish my purpose for a few good-natured pats on the back, and being told I am a fine fellow. I have read a great many anonymous letters asking if I am not "ashamed of myself—a great fellow like me to come over to whip a little man like Sayers." Under ordinary circumstances I should not think of sending a challenge to a man of Sayers' size; but England thinks him big enough to defend the belt. I want it, and cannot get it except through him. The enclosed letter, which I sent to Bell's Life, when I heard that they intended to call in the surgeon to name the day before which Sayers could not finish the pending affair, will show my position; and, as Bell's Life has not published it, you will do me a great kindness by letting the English people hear what I have to say. If the late battle is not to be resumed, and the belt is not to come to me for what has already taken place, I claim to be first on the list to meet Sayers again for the next chance to conquer it.

The following is the letter to Bell's Life:

Not having been able to obtain from you as referee the final decision upon the fight of Tuesday last, I desire to demand through you a new meeting within the present week. I make this demand from having been informed that it is suggested on your part that I should give Sayers sufficient time to recover from certain injuries received by him. Now, sir, while I am willing to accommodate him in any proper way, I must not be unmindful of my own rights; I also received injuries, but I bargained for them, and I put to you as a man of honor, whether if I had been deprived through the effect of the said fight, of my eye sight or the use of my arm as in the case of Brettle, when disabled by Sayers, you would have made Sayers wait for me any length of time that might be dictated by my private doctor. When these matches were made the date of the battle was the 16th, or as soon as we could get to fight; and according to the rules if the battle should be interrupted, it was my understanding and I believe it is the law that we should fight within a week. We did meet according to contract; the battle which is said to be unfinished, I am prepared to renew it any moment, within lawful limits. If Sayers on account of injuries received from me, is unable, and cannot meet me according to the rules of manly opposition, I demand and claim that he resign to me the belt, which he is not according to the rules of the prize ring entitled to retain. Hoping to receive an answer from you before the week expires stating your views in full, I am, &c.

P. S.—You will please understand I don't wish to fight because he is represented to be in a disabled condition, but I wish to obtain what I think I have already won, and which I will cheerfully hand back whenever he or any other person thinks he can take it from me.

Two hundred pounds are said to have been subscribed in Liverpool by American captains for the benefit of Heenan.

The Market.

NEW YORK, May 7.

Flour market quiet and unchanged:—5,55a5,90 common to medium extra western; Rye flour 3,60a4,70; Wheat market shade better with export enquiry, sales 22,000 bush. 1,29½ for No. 1 Chicago spring; 1,29a1,30 Milwaukee club; Rye quiet, 86; Barley dull; Corn shade better with more export demand; Oats 1c better with fair export demand; 42a43 Canada and state.

JURY DISCHARGED.—The Madison Patriot says that the jury in the case against Wm. C. Webb, disagreed, and the judge discharged them. Webb was charged with having forged the name of Babcock to the documents necessary to get a loan from the school fund on a lot of land in Waushara county. As the defendant was a member of the bar, he was allowed to address the jury in his own behalf, which he did with much confidence.

THE RAILROADS AND THE CHICAGO CONVENTION—HALF FARE.—We learned late on Saturday evening last that the Chicago and Milwaukee, the Chicago and Northwestern, the Galena and Chicago Union, and the Chicago, Burlington and Quincy roads have determined to carry passengers to and from Chicago during the sitting of the national republican convention, at half-fare. This will be good news to our republican friends living on and near to the lines of the above roads; and we doubt not the aggregate receipts of the roads will be largely augmented by their liberality in the premises. We did not hear from the Rock Island, the St. Louis, and the Illinois Central on Saturday evening, but we are quite certain they will come promptly into the half-fare arrangement. All the lines of road leading from the east into this city have previously announced the issuing of half-fare tickets; and we also learn that the Cincinnati, Hamilton and Dayton, the Indianapolis and Cincinnati, the Dayton and Michigan, the Lafayette and Indianapolis, the New Albany and Salem, and the Detroit and Milwaukee roads have all come into the arrangement. With such inducements to visit our city, we think the number of strangers that will be here during convention week will be unprecedented. They may rest assured of a hearty, generous welcome. *Chicago Tribune.*

DILIGENCE.—Whatever you do, do with all your might. Work, if necessary, early and late, in season and out of season, not leaving a stone unturned, and never deferring for a single hour that which can just as well be done now. The old proverb is full of meaning: "Whatever is worth doing is worth doing well." Many a man acquires a fortune by doing his business thoroughly, while his neighbor remains poor for life, because he only half does his business. Ambition, energy, industry and perseverance, are indispensable requisites for success in business.

☞TRUE TO THE LETTER.—The price paid for a newspaper is like seed sown in the ground; it brings back a thousand fold its value. Some people, however, don't believe it. They think a dollar and a half or two dollars a year, paid for a newspaper, is so much paid for a luxury, where in truth it is a prime necessity. In a family without a newspaper, children are brought up without a knowledge of this world and its concerns.

Mormons in Ohio—The Kirtland Temple to be Revived.

It is well known that shortly after Joe Smith discovered the "gold plates" near Palmyra, New York, and organized the now extensive and powerful sect known as the Mormons, he and his followers removed to Kirtland, Lake county, Ohio, which had been designated as the "Land of Zion," and erected a "Temple of the Latter Day Saints," which was completed and dedicated in the autumn of 1834. Here it was that the "Prophet" Smith assumed temporal as well as spiritual power, and as he felt his power increasing he continued introducing new doctrines and practices until 1836, when the doctrine of polygamy was broached by one Sidney Rigdon, a pettifogging lawyer, who had become connected with the society. This was violently opposed by numerous members of the society, headed by one Elder Rich. The Church refused to sanction polygamy, but which it is said both Smith and Rigdon practiced then in a quiet way. The land speculations of the Mormons in that vicinity resulted in numerous lawsuits and quarrels, and these, together with an attempted murder by the Mormons, of one Grandison Newell, still a resident of Lake county, created such a hostile feeling between the Mormons and the people of the surrounding country that the "Prophet" Smith and his disciples removed, in 1839, to Illinois.

A few of the faithful, including Elder Rich, who had opposed the latter innovations in doctrine, refused to leave "Zion," and to their hands, therefore, was committed the care of the Temple. Of these, about a dozen people are left, who remain under the spiritual care of Elder Rich, before mentioned. They have remained faithful to the doctrines of the Church as at first taught, loathe and abhor the corrupt practices and doctrines of the Salt Lake Mormons, and await in patience the regeneration of the Church, and its return to the promised Zion. Of this ultimate return to Kirtland they have not the slightest doubt. It has been revealed to them, and cannot, therefore, be doubted.

A short time since, a son of the Prophet Joe Smith was formally installed at Amboy, Lee county, Illinois, as "Prophet, Seer and Revelator in Zion" of the Reformed Mormon Church. The Mormons of Illinois claim that they have received a message from the Lord to again assemble in Kirtland and build up the city of Zion, and young Joe Smith is looked to as the Prophet who is to lead the renowned Church to power and glory.

The Temple at Kirtland is built of stone, in a substantial manner, and contains two lofty stories, besides a large attic, and a deep cellar the whole length of the building. A cupola surmounts a high roof and affords one of the finest views in Ohio. A short time ago we visited this celebrated Temple and were "ciceroned" by a venerable and red-eyed Mormon, who has clung to the Temple and corn whisky ever since Joe Smith left for Nauvoo. His only occupation for several years has been to show strangers the wonders of the Temple, the change he picks up in that capacity enabling him to keep his "keg" full the most of the time. The inside of the building presents a dilapidated appearance. The sacred desks of the priests and elders are nearly demolished; Joe Smith's pulpit is hacked to pieces by the defacing knives of "relic hunters;" the walls are scrawled with the names of hundreds of visitors, and the elaborate moulding and gilded letters with which the interior was profusely ornamented, have nearly all been stolen. Town meetings, lectures, concerts, &c., have been held there for a number of years, and occasionally, during the winter, the wide and lofty halls resound to the lively notes of the violin, as the beauty and chivalry of Kirtland and vicinity join in the festive dance by the light of numerous tallow chandeliers. If the Reformed Mormons again set their "stake" at Kirtland, the Temple will be refitted.—*Sandusky Register.*

The Merry Wives of San Francisco.

The French Phare is responsible for the truth of the following story:

Two French ladies of this city took a notion to visit the Japanese corvette, but to their great disappointment, learned that ladies were not admitted on board. They were daughters of Eve, however, and were not to be baulked; and accordingly after two days of planning, they surmounted all difficulties. By the favor of their husbands, who humored the merry curiosity of their spouses, everything was prepared; and on Friday morning five gentlemen of very gallant bearing, were placed on board the corvette. They were received very cordially, and at the request of one of the yonngest they were presented to the Admiral, who learning that they were French gentlemen, had them point out upon the map the position of France—all of which, as it were, introduced subjects for conversation, which only wanted facility of mutual understanding language to make it complete.

As our gentlemen were about to depart, instead of a formal and ceremonious adieu, they reached forth their hands. Suddenly the Admiral stopped; he held in his own hand that of the youngest of his visitors, and he seemed, by a searching glance, to discover a profound mystery. His eyes ran from one to the other of our five compatriots, but finally became, as it were, fixed on the youngest two, who evidently attracted all his attention. He seemed to be ravished, made his visitors re enter, invited them to dine, and astonished even himself with his exquisite politeness.

After the repast two servants made their appearance with a basket, in which were various fancy articles. The Admiral took out three beautiful cigar cases, three small pipes, and three papers of tobacco, which he offered to the oldest visitors. He then took out two magnificent fans, two golden hair pins, and two coral bracelets, and advancing, presented them to the youngest visitors, at the same time saying in bad English, that although a Japanese, he was still a man, and that he never touched the hand of a lady, but he felt affected.

The young visitors blushed at first, but soon commenced laughing, and confessed that they were indeed ladies; but the pleasure of visiting the Japanese had induced them to don the male attire. They then presented their husbands to the Admiral; a half hour longer was spent in conversation and laughter; and when the time of separation came it was regretted by all. A carriage was waiting upon the wharf for our fair visitors, and they were driven away highly delighted with their adventure.

Le Phare concludes the story by saying that there are three morals in it, and that the reader shall take that which he likes best.

HENS AND EGGS.—For several years past I have spent a few weeks of August on the Kennebec river, in Maine. The lady with whom I have stopped is a highly accomplished and intelligent housewife. She supports a hennery, and from her I derived my information in the matter. She told me that for many years she had been in the habit of administering to her hens, with their common food, at the rate of a teaspoonful of cayenne pepper each alternate day, to a dozen fowls. Last season, when I was with her, each morning she brought in from 12 to 14 eggs, having but sixteen hens in all. She again and again experimented in the matter by omitting to feed with cayenne for two or three days. The consequence invariably was that the product of eggs fell off five or six per day. The same effect of using cayenne is produced in winter as well as summer.—*Boston Transcript.*

MUSCULAR STRENGTH.—The muscular strength of the human body is wonderful.—A Turkish porter will trot at a rapid pace, and carry a weight of six hundred pounds. Nilo, a celebrated athlete of Cretona, in Italy, accustomed himself to carry the greatest burdens, and by degrees became a monster in strength. It is said that he carried on his shoulder an ox, four years old, and weighing upwards of one thousand pounds, and afterwards killed him with one blow of his fist. He was seven times crowned at the Pythian games, and six at the Olympic. He presented himself the seventh time, but no one had the courage to enter the list against him. He was one of the disciples of Pythagoras, and to his uncommon strength that preceptor and his pupils owed their lives. The pillar which supported the roof of the house suddenly gave way, but Milo supported the roof of the building and gave the philosopher time to escape. In old age he attempted to pull up a tree by the roots and break it. He partially effected it, but his strength being gradually exhausted, the tree where cleft united, and left his hand pinched in the body of it. He was then alone, and unable to disengage himself, died in that position. Haller mentions that he saw a man, whose finger caught in a chain at the bottom of the mine, by keeping it forcibly bent, supported, by that means, the whole weight of the body, one hundred and fifty pounds, until he was drawn up to the surface, a distance of six hundred feet. Augustus II, king of Poland, could roll up a silver plate like a sheet of paper, and twist the strongest horse-shoe asunder. A lion is said to have left the impression of his teeth upon a piece of solid iron. The most prodigious power of muscle is exhibited by the fish. The whale moves with a velocity, through a dense medium, water, that would carry him around the world in less than a fortnight. A sword fish has been known to strike his weapon through the thick plank of a ship; a specimen of such a plank, with the sword of the fish sticking in it, may be seen in the British Museum.

The editor of the Savannah Republican, writing from Charleston, says of the convention:

"The reportsent gives but a faint idea of the spirit and manner that characterized the action of the convention. It opened boisterous, and instead of a harmonious party, assembled through their delegates to give expression to the popular will, it appeared more like two contending armies, inflamed with mutual suspicions, jealousies and wrongs, and each intent upon the overthrow and demolition of the other. The convention sat until about three o'clock, and the very worst spirit prevailed throughout the session. In two minutes after the close of the preliminary prayer (which, by the way was most unconscionable in its length) the entire body was thrown into an uproar and 'confusion worse confounded.'"

Starvation stares the residents of Middle Tennessee in the face. The editor of the Nashville Christian Advocate complains that he has to pay forty cents a pound for all the butter used in his family, and thought himself particularly fortunate the other day in getting a "jackfish" for half a dollar. That fish furnished him a breakfast, but he says it is rarely that he can afford to buy a cabbage or a salad for dinner,—cabbages and other light and nutritious vegetables having been sadly neglected by the Tennessee farmers. Secular papers confirm these melancholy representations of the clergy, and if things don't mend, we shall have to send provisions over the railroads to that desert region, just as we fed Ireland by the shipload in '47.

THE AMERICAN MILLIONAIRE.—Mr. Wm. B. Astor, is worth at least $25,000,000, and every cent of income, over and above expenses and charities, is immediately reinvested. Mr. A. is still a hale and hearty looking man, and will probably live to be as old as his father. He has an office, where he works harder than a dry goods clerk. Six or seven gentlemen act as book-keepers, but he holds the thread of the complicated skein in his own hand. And yet, such is one of the peculiar phases in the history of all rich men's lives, he will leave this gay world and all its possessions, the temporary owner of a plat of ground only 6 feet by 3. That's all he gets for his trouble.

A CHAPTER ON MAD DOGS.—Mr. Dorwith, who was bitten by a mad dog, has gone to Chicago to receive every aid that medicine can give to overcome any evil effect which might, if not properly treated, develop itself in future.

John M. Delap, of the town of Freedom in this county, was bitten by another mad dog on Friday last, but we hear nothing further of his case. It is supposed that a large number of animals were also bitten by the same vicious canine.

A mad dog excitement was occasioned in Reedsburgh last Sunday by the appearance of one of these scourges of society, which was speedily dispatched, but not until it had bitten four other dogs esteemed valuable by their owners, and a cow belonging to Mr. Warren. A general slaughter, not only of the dogs bitten, but of the uncollared portion of *caninity*, has followed.—*Baraboo Republic.*

TAKEN CARE ON.—About four years ago a party of Indians from Rock river, having a little white girl in their possession, established a camp near this place. Suspicion being entertained that the girl had been stolen, a dozen or so of the citizens of the Prairie turned out and took her away from them. She was given in charge of a family, some distance out of town, with whom she lived until last week. Sunday night she run away to a neighbor's, on account of long continued ill usage, and yesterday was brought to town by Col. Jno. Thompson and placed in kinder hands. She is now 11 years old, speaks nothing but French, and is an ordinarily intelligent looking child.—We hope the little thing's troubles have about ended, and that hereafter she will be well cared for.—*Prairie du Chien Leader.*

HEAVY ROBBERY OF A COUNTRY MERCHANT—$500 REWARD OFFERED FOR THE THIEF.—On Tuesday night, about half past ten o'clock, Mr. Henry S. White, of Tremont, Tazewell county, arrived in this city on his way to the east, and finding his old quarters, the Sherman House, deserted and being torn down, went to the New York House, obtained a room and retired to rest. Mr. White, who is a merchant at Tremont, had with him, in a carpet bag, $7,800 taken, which he intended to convert into New York exchange here. Mr. White had also a smaller sum of money, about $400, in his pantaloons pocket, and some $2,000 in railroad shares, in his coat pocket. The room was cold and Mr. White, after carefully placing his carpet bag at the foot of the bed, covered it with clothes, laid down in his pantaloons, and went to sleep.

Yesterday morning he woke up and after dressing picked up his carpet bag, when to his horror he discovered that it had been slit open, and the whole of $7,800 taken! The door of his room was not disturbed, but he saw that the window of his apartment was immediately above the roof of a small building, by means of which an entrance might easily have been effected into the room. The money in his pantaloons' pocket and the railroad stock was not taken. Eleven hundred dollars of the money taken were in one hundred dollar bills on the bank of America. Mr. White offers a reward of $500 for the apprehension of the robber or the recovery of the money. The matter was placed in the hands of a skillful detective yesterday, but up to last night, no clue to the thief had been obtained.—*Chicago Democrat.*

A RICH MAN'S DAUGHTER AND HIS SERVANT GIRL RUN AWAY WITH A PICKPOCKET.—On Wednesday last, the daughter of Mr. Kohlhammar, a well-to-do citizen of Milwaukee, and well known as a wholesale flour dealer, together with his servant girl, ran away from that city. The Chicago Journal has the particulars, and says that the servant girl, who had made the acquaintance of a noted pickpocket in Chicago, received a letter from him a few days since, urging her to get together all the money she could and go to Chicago, and if possible take Mr. K.'s daughter with her.

The daughter, who is a very respectable girl, and quite a lady in her appearance, prevailed upon by the wiles of the servant girl, took $80 of her father's money and went to Chicago on Wednesday with the servant girl, who had managed to get $35 out of her own folks. They first went to a boarding house at the corner of La Salle and Michigan streets, in that city, but remained there only one night, and the next day went to No. 421 Canal street.

The father in the mean time went on in hot pursuit of the fugitives, and officer Walker was put on their track. By waiting at the Chicago depot, and following up their trunks, he discovered their whereabouts, arrested them and gave them over to the father, who departed Thursday night with the runaways for Milwaukee. The daughter evidently was the victim of those foolish romantic notions about eloping, which are so prevalent now a days, instilled into the youth of our country by the Sylvanus Cobb literature of the land, while the servant girl, destitute of the romance, was making a practical thing of it, by getting together all the money she could and joining her "lovyer" the pickpocket.

THE BEARD.—A writer in the Lynn Reporter says:

The deaths by consumption have decreased some fifty per cent. per annum among the stone cutters of Quincy, Milton, Rockport, and the marble works of Vermont, since they have ceased shaving, and given nature her sway in matters she may be supposed to understand. Workmen in western flour mills; colliers in the numerous mines of the middle states; miners at Galena, Dubuque and the copper regions of Lake Superior; employees in drug mills, drivers, engineers, arctic navigators; residents in low wet countries, and thousands of artisans whose employment is prejudicial to healthy lungs, generally wear the mustache as a *sanitary* rather than an ornamental appendage to the face of manhood.

MOST EXTRAORDINARY RESULTS
FROM THE USE OF
WINCHESTER'S GENUINE
Hypophosphites
IN THE CURE OF CONSUMPTION.

I need only call the attention of all Consumptive sufferers, whether in advanced or the incipient stage of the disease, to the following extract from a letter addressed to me by a physician of great experience, and extensive practice in Chester Co., Pa. The voluntary evidence of professional men, such as that of Dr. Townsend, ought to convince the most skeptical of the extraordinary efficacy of my preparation of Hypophosphites:

CHATHAM, PA., 3d Month, 26th, 1860.

FRIEND J. WINCHESTER:— * Thirty-six persons have obtained the medicine from me, twelve of whom have been under my own care. Five of them were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irritable cough, copious expectorations of a purulent character, night sweats and emaciation. These cases were from one to three years' standing. Auscultation and percussion developed sounds which, taken in connection with other symptoms, gave evidence of a condition from which I have never, in seventeen years' practice, seen a single case recover by any other treatment. * Under the use of the Hypophosphites, all the bad symptoms ceased; they have gained flesh and strength and health—some of them better than they had enjoyed for seven years previously.

The other cases under my care were in the incipient stage, and in them all symptoms and traces of the disease have disappeared. Of those who were not under my care. I have not heard of a single patient who himself benefitted by the use of the remedy, although in some of them the disease was too far advanced to admit the possibility of recovery.

I presume I am as skeptical in medicines or specifics as most physicians; yet, from the experience I have had in the use of Dr. J. F. Churchill's Remedy for Tuberculosis, I would say to all who have a tendency to that disease—take it, and the sooner the better, before there is any disorganization. * * *
W. W. TOWNSEND, M. D.

The Hypophosphites of Lime and Soda

act with promptness and certainty in every stage of Consumption, and with invariable efficacy in all derangements of the nervous and blood systems, general debility, dyspepsia, asthma, rickets, female complaints, spermatorrhea, in all disorders dependent on imperfect or impaired nutrition, and in all cases of local or constitutional debility. They increase the nervous or vital energy, relieve cough, check night sweats, diminish expectoration, improve the appetite, arrest diarrhoea, promote refreshing sleep, and create new and healthful blood. A fair trial is a certain cure.

Winchester's Genuine Preparation

of the Hypophosphites of Lime and Soda, is the only reliable form of Dr. Churchill's remedy, and is approved by the medical profession generally. Use no other or any remedy containing iron.

PRICES.—In 7 and 16 ounce (pint) bottles, $1 and $2 each.

Would respectfully announce to the citizens of Janesville and vicinity, the arrival from the east of his brother, Dr. G. W. Shattuck, who is a very able and skillful operator in all the recent improvements of the dental art, and whose valuable services he has secured. Dr. S. would also inform the public that at great expense he has obtained the right of using "Goodyear's Celebrated Patent Vulcanised Rubber Base" for artificial teeth, which for lightness, durability, cheapness and comfort, he feels perfectly safe in recommending as being *far superior to continuous gum work*, and is now prepared, with the aid of his brother, to insert part or whole sets of teeth in all the most improved styles and is determined that his work shall be second to that of no other. All who wish to secure a good set of artificial teeth will do well to call and examine specimens. All work warranted and perfect satisfaction given or no charge. ACCIDENT.—While Mr. Robert Peters, a brother of John Peters the contractor, was carrying a ladder across the joists of the lower story in Myers' new block to-day, a joist from the 2nd story fell upon him and struck him across the shoulder, injuring him considerably. His escape from death was narrow, for if the joist had struck upon his head he would probably have been killed.

WIARD'S ICE BOAT.—The Lady Franklin, Wiard's new ice boat, passed through this city Saturday morning on its way to Prairie du Chien. Mr. W., we understand, preceded the boat to Prairie du Chien, and was in readiness to receive it when it arrived.

THE STATE PRINTING MATTER SETTLED.—We learn that all matters in controversy between the state printer and the state have been settled in a manner satisfactory to both parties, and we presume also in a manner that will prove satisfactory to the people of the whole state. Various opinions have been entertained on both sides as to the construction of the contract, the effects of which range from a cost of $25,000 per annum for printing, up to some $200,000. The arrangement finally completed will involve a cost to the state of some $12,000 per annum during the present two years' contract of the state printer, for all printing, advertising, &c., done and to be done for the state. This result, which has been arrived at by a construction of the contract of which it is susceptible, involves a fair, and we presume not an extravagant price for the work done, and is considerably less than the work has ever before been had for by the state.

S. P. Rounds, of Chicago, and Charles Holt, of Janesville, both practical printers, were employed to determine what the work was actually worth, though the Argus says, Secretary Harvey has done the principal part of the settling. That it will be a great relief to the state departments to have got rid of this matter we know, and that the state has got out of it full as well and probably better than she would at the end of law suits, is very certain; and therefore we doubt not the people at large will be generally gratified that it is disposed of.

The new law on the statute book under which the printing will hereafter be let, promises to relieve the matter of the troubles which have heretofore pertained to it, and there is good reason to hope that the public ear will not hereafter be stunned as heretofore, by public printing controversies.—*Free Democrat.*

While some of the individuals alluded to by the Democrat in effecting a settlement of this vexed question, we have no disposition to award any responsibility, we deem it proper and just to Mr. Harvey, the secretary of state, to detract no merit from him. Mr. Harvey had previously examined this matter very thoroughly, and was fully prepared to settle all the questions involved, without any assistance from either of the parties with which said was solicited. It is true that the computations made by [illegible] selected by the contractor were verified by the secretary of state, [illegible] practical printers, as to the matter of prices, facilitated a settlement; nevertheless true that the [illegible] would have been made by Mr. Harvey on his own knowledge [illegible] There are few men better [illegible] the complicated duties of his [illegible] printing question was one of [illegible] than Mr. Harvey.

[illegible] evident that the state officers, [illegible] of Mr. Harvey, have acted [illegible] the best interests of the state, [illegible] equitable all parties interested, [illegible] settlement of a difficult [illegible] question has been made.

[illegible] MILWAUKEE.—To give [illegible] the whole receipts in this city [illegible] only necessary to say that it [illegible] Fairbanks' 30 ton track [illegible] was out of weighing. Two [illegible] recently been placed at High[illegible] on the La Crosse railroad.—[illegible] the scales these scales have obtained [illegible] and the general confi[illegible] public in their accuracy and [illegible] more than a just reward for [illegible] and vigilant care and efforts of [illegible] that no imperfect scale [illegible] leave their manufactory.—*Milwaukee Wisconsin.*

OFFICIAL CANVASS.—JUDGE DIXON [illegible] CONGRESS.—The official [illegible] judicial election was finished [illegible] afternoon. The certificate [illegible] awarded to Luther S. Dixon. He [illegible] and A. Scott Sloan 53,113, [illegible] elected by 395 votes. We will [illegible] official table to-morrow. The returns carefully canvassed by Secretary [illegible] Lieutenant Governor Hastings and Attorney [illegible] Hoyt.—*Madison Patriot.*

A GOOD CHANCE OVER CHEAP.—The Madison [illegible] by looking over the papers in [illegible] removed to this county for [illegible] found out, yesterday, that he [illegible] over in the sum of fifteen dollars [illegible] The amount of his bail was probably [illegible] $1,500, but in making out the [illegible] the word "hundred" was omitted, [illegible] therefore at present under only $15 [illegible] and he can get out of the custom [illegible] and leave the state cheaper a great [illegible] he can come to Madison to be [illegible].

CHARLES SENTENCED.—Charles F. Coon, [illegible] Colby in the Albion seduction case, [illegible] convicted by Judge Orton to one year [illegible] imprisonment in the state prison, with one [illegible] solitary confinement.

FOR PIKE'S PEAK.—A company consisting of Josiah Bowen, Henry Bowen and [illegible] Babcock, left Albany, Green county, for Pike's Peak, on Tuesday last.

A GOOD ENOUGH CAUSE.—A woman recently got a divorce from her husband in Illinois, because he insisted (very like a [illegible] in keeping with his shoes on.

POPULATION OF WISCONSIN AND ILLINOIS.—The secretary of state of Wisconsin has published a table giving the total vote for governor at the election in this state last fall, with an estimate based thereon of the population of the state. He estimates one vote to every seven inhabitants. The total vote for governor was 123,299, which, according to the estimate, gives a population of 863,093. The population of Wisconsin in 1850 was 305,391, showing an increase of 557,702, or an increase of 185 per cent.

Estimated upon the same ratio, the vote at the last election in Illinois in 1858, would indicate a population of nearly 1,800,000; which is possibly not far from the actual figures.

Illinois now has 9 members of congress, and Wisconsin 3—total 12. If the ratio be fixed at 105,000 for a member of congress, it gives Wisconsin 3, and Illinois 17 members after 1861. Both states now have 16 votes for president; after 1861 their combined vote will be 29; nearly one-tenth of the whole.

THE NEW ASSESSMENT LAW.—The Sparta Herald, in noticing the assessment law of last session, pays Senator Bennett, and Secretary Harvey the following merited compliment:

"Great praise is due to Dr. Bennett, the able senator from Rock county, who first introduced the present system, and has perseveringly labored from year to year in getting it perfected, but whose efforts have been in a great measure thwarted until the late session.

The thanks of assessors and the public are due to the present efficient Secretary of State, L. P. Harvey, Esq., for a correct analysis of the law, explaining fully and plainly its provisions to the assessors, so they cannot (if at all qualified for their duties) fail of understanding and carrying out the law according to its full intent and meaning.

TARRING SEED CORN.—The preparation has often been recommended, but the question is often asked us in the sanctum, *how* is it done. First soak the corn in warm water until it is plump. This will hasten its germination, for if the tar is applied to the dry kernel it will require nearly a week longer than is ordinary for it to make its appearance—indeed, it will not germinate if the solution of tar should be too strong. The tar is prepared by putting two or three large spoonsfull with a gallon of hot—not quite boiling—water. Stir well together and pour on a peck or half bushel of seed. Stir together well and roll in plaster of Paris immediately, to dry it. We may not have given here the exact proportions necessary for we never measured them—but one's judgment is sufficient guide. This solution should contain sufficient to make it achere to the corn.

We have found that it proves a morsel that neither birds or worms are particularly fond of and they are pretty apt to let it alone.

Many a true heart that would have come back like a dove to the ark, after its first transgression, has been frightened beyond recall by the savage charity of an unforgiving spirit.

It is very well for little children to be lambs, but a very bad thing for them to grow up sheep.

LIFE INSURANCE.—Those desiring this *safest* and *cheapest* protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented," we would cordially invite all our citizens to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.

S. S. DAGGETT, Pres't.
A. W. KELLOGG, Sec'y.

☞ Messrs. Pixley & Harlow, produce dealers, and Capt. Geo. S. Dodge will receive applications for insurance in this home company, and will also be happy to give information as to the condition thereof, to any one desirous of being informed, in Janesville. apr13daw1y

COMMERCIAL.

Janesville Wholesale Market.

Reported for the Janesville Gazette, BY
BUMP & GRAY,
GRAIN AND PRODUCE DEALERS.

JANESVILLE, MAY 7, 1860.

Receipts of wheat were again quite light to-day, only about 1200 bushels being on the market during the day. Prices ranged at about Saturday's quotations, and notwithstanding the dull news from Chicago and New York were firm and closed steady. Receipts of coarse grains light, and prices unchanged. We think the light receipts is owing mostly to the farmers being busy planting their corn, as there must be a considerable quantity in their hands to be marketed, and with present prices they would undoubtedly bring it along were it not good weather for planting.

We make up prices as follows:

WHEAT—white winter 1.05a1.15; good to choice milling spring at 1,03a1.06; common to fair shipping, 99a1,02.

BARLEY—in good request at 45a53c per 50 lbs., fair to choice.

CORN—shelled, per 60 lbs., 42a43c; ear per 70 lbs. 30a35c.

OATS—advanced to 28a30 per bushel.

RYE—quotable at 60a65 per 60 lbs. None coming forward.

POTATOES—plenty at 30a40 per bushel for good to choice ones.

TIMOTHY SEED—scarce and in demand at 2.25a2.60 per 46 lbs.

BUTTER—plenty at 11a13.

EGGS—in fair demand at 7a8 per dozen.

HIDES—green, 6a6¼; dry flint, 12a14.

FLOUR—spring at retail, 2.60, winter, 3.50.

POULTRY—chickens, 6a7; turkeys, 7a8.

Non-Explosive Burning Fluid
USED WITH SAFETY & ECONOMY.
The Best in the Market.
Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in BURNING FLUID, and have always, thus far, kept fully *up to the times*, in any improvements made in its manufacture. Nearly a year ago, in an appeal in favor of its more general use, based upon the fact that the raw material from which it is made is mainly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, *as now made by those who understand the business in which they are engaged.* That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered ere this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, *no safer, better or more agreeable light can be produced.* As we are indebted to no traveling "Prof. GEEEN—O!" for the high state of perfection attained by us in its manufacture, we are, as usual, prepared to offer our Fluid at the *LOWEST MARKET FIGURES*, and to guarantee entire satisfaction in its use, or the money refunded. ACCIDENT.—While Mr. Robert Peters, a brother of John Peters the contractor, was carrying a ladder across the joists of the lower story in Myers' new block to-day, a joist from the 2nd story fell upon him and struck him across the shoulder, injuring him considerably. His escape from death was narrow, for if the joist had struck upon his head he would probably have been killed.

WIARD'S ICE BOAT.—The Lady Franklin, Wiard's new ice boat, passed through this city Saturday morning on its way to Prairie du Chien. Mr. W., we understand, preceded the boat to Prairie du Chien, and was in readiness to receive it when it arrived.

THE STATE PRINTING MATTER SETTLED.—We learn that all matters in controversy between the state printer and the state have been settled in a manner satisfactory to both parties, and we presume also in a manner that will prove satisfactory to the people of the whole state. Various opinions have been entertained on both sides as to the construction of the contract, the effects of which range from a cost of $25,000 per annum for printing, up to some $200,000. The arrangement finally completed will involve a cost to the state of some $42,000 per annum during the present two years' contract of the state printer, for all printing, advertising, &c., done and to be done for the state. This result, which has been arrived at by a construction of the contract of which it is susceptible, involves a fair, and we presume not an extravagant price for the work done, and is considerably less than the work has ever before been had for by the state.

S. P. Rounds, of Chicago, and Charles Holt, of Janesville, both practical printers, were employed to determine what the work was actually worth, though the Argus says, Secretary Harvey has done the principal part of the settling. That it will be a great relief to the state departments to have got rid of this matter we know, and that the state has got out of it full as well and probably better than she would at the end of law suits, is very certain; and therefore we doubt not the people at large will be generally gratified that it is disposed of.

The new law on the statute book under which the printing will hereafter be let, promises to relieve the matter of the troubles which have heretofore pertained to it, and there is good reason to hope that the public ear will not hereafter be stunned as heretofore, by public printing controversies.—*Free Democrat.*

While, as one of the individuals alluded to by the Democrat in effecting a settlement of this vexed question, we have no disposition to avoid any responsibility, we deem it proper and just to Mr. Harvey, the secretary of state, to detract no merit from him. Mr. Harvey had previously examined this whole matter very thoroughly, and was fully competent to settle all the questions involved without any assistance from either of the persons whose aid was solicited. It is not unlikely that the computations made by those persons, one selected by the contractor and the other by the secretary of state, and their opinions, as practical printers, as to a fair scale of prices, facilitated a settlement; but it is nevertheless true that the same settlement would have been made by Mr. Harvey solely on his own knowledge and judgment. There are few men better qualified for the complicated duties of his office, and this printing question was one of the most intricate, than Mr. Harvey.

We are confident that the state officers, under the lead of Mr. Harvey, have acted wisely and for the best interests of the state, and we congratulate all parties interested, that an equitable settlement of a difficult and irritating question has been made.

GRAIN TRADE IN MILWAUKEE.—To give some idea of the wheat receipts in this city by rail, it is only necessary to say that it requires seven of Fairbanks' 30 ton track scales to do the amount of weighing. Two of these have recently been placed at Higby's elevator, on the La Crosse railroad.—To test the exactness of these scales, a loaded car was placed on the upper one and weighed, and then moved to the lower scale, each scale weighing the car precisely the same. This was done with six separate cars, and in each case the result was the same. Besides the above, there are four at Smith's elevator, and one at Kellogg & Strong's.

The reputation these scales have obtained has been well earned, and the general confidence of the public in their accuracy and reliability is no more than a just reward for the untiring and vigilant care and efforts of the manufacturers, that no imperfect scale shall ever leave their manufactory.—*Milwaukee Daily Wisconsin.*

THE OFFICIAL CANVASS—JUDGE DIXON RECEIVES THE CERTIFICATE.—The official canvass of the judicial election was finished at 4 o'clock this afternoon. The certificate has been awarded to Luther S. Dixon. He received 58,508, and A. Scott Sloan 58,113, thus being elected by 395 votes. We will publish the official table to-morrow. The returns were carefully canvassed by Secretary Harvey, Treasurer Hastings and Attorney General Howe.—*Madison Patriot.*

BOOTH GETS OUT CHEAP.—The Madison Argus says: by looking over the papers in the Booth case, removed to this county for trial, it was found out, yesterday, that he was bound over in the sum of fifteen dollars only. The amount of his bail was probably, in fact, $1,500, but in making out the bail bond the word "hundred" was omitted. He is therefore at present under only $15 bonds, and if he can get out of the custom house, might leave the state cheaper a great deal than he can come to Madison to be tried.

COON SENTENCED.—Charles F. Coon, found guilty in the Albion seduction case, was sentenced by Judge Orton to one year imprisonment in the state prison, with one day solitary confinement.

FOR PIKE'S PEAK.—A company consisting of Jared Bowen, Henry Bowen and Henry Babcock, left Albany, Green county, for Pike's Peak, on Tuesday last.

A GOOD ENOUGH CAUSE.—A woman recently got a divorce from her husband in Illinois, because he insisted (very like a horse) in sleeping with his shoes on.

POPULATION OF WISCONSIN AND ILLINOIS.—The secretary of state of Wisconsin has published a table giving the total vote for governor at the election in this state last fall, with an estimate based thereon of the population of the state. He estimates one vote to every seven inhabitants. The total vote for governor was 123,299, which, according to the estimate, gives a population of 863,093. The population of Wisconsin in 1850 was 305,301, showing an increase of 557,702, or an increase of 185 per cent.

Estimated upon the same ratio, the vote at the last election in Illinois in 1858, would indicate a population of nearly 1,800,000; which is possibly not far from the actual figures.

Illinois now has 9 members of congress, and Wisconsin 3—total 12. If the ratio be fixed at 195,000 for a member of congress, it gives Wisconsin 8, and Illinois 17 members after 1861. Both states now have 16 votes for president; after 1861 their combined vote will be 29; nearly one-tenth of the whole.

THE NEW ASSESSMENT LAW.—The Sparta Herald, in noticing the assessment law of last session, pays Senator Bennett, and Secretary Harvey the following merited compliment:

"Great praise is due to Dr. Bennett, the able senator from Rock county, who first introduced the present system, and has perseveringly labored from year to year in getting it perfected, but whose efforts have been in a great measure thwarted until the late session.

The thanks of assessors and the public are due to the present efficient Secretary of State, L. P. Harvey, Esq., for a correct analysis of the law, explaining fully and plainly its provisions to the assessors, so they cannot (if at all qualified for their duties) fail of understanding and carrying out the law according to its full intent and meaning.

TARRING SEED CORN.—The preparation has often been recommended, but the question is often asked us in the sanctum, *how* is it done. First soak the corn in warm water until it is plump. This will hasten its germination, for if the tar is applied to the dry kernel it will require nearly a week longer than is ordinary for it to make its appearance—indeed, it will not germinate if the solution of tar should be too strong. The tar is prepared by putting two or three large spoonsfull with a gallon of hot—not quite boiling—water. Stir well together and pour on a peck or half bushel of seed. Stir together well and roll in plaster of Paris immediately, to dry it. We may not have given here the exact proportions necessary for we never measured them—but one's judgment is sufficient guide. This solution should contain sufficient to make it adhere to the corn.

We have found that it proves a morsel that neither birds or worms are particularly fond of and they are pretty apt to let it alone.

Many a true heart that would have come back like a dove to the ark, after its first transgression, has been frightened beyond recall by the savage charity of an unforgiving spirit.

It is very well for little children to be lambs, but a very bad thing for them to grow up sheep.

LIFE INSURANCE.—Those desiring this *safest* and *cheapest* protection for their families, can secure it in our Wisconsin company. It has already become, in reality, a state institution, having agents and patrons among the best business men in all the principal towns in the state. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other eastern state.

Thus while duty demands that men should insure their lives, it also demands that they should keep their money for investment at home. Confident that our success has been more than equal to that of the most "unprecedented," we would cordially invite all our citizens to call at the office, south-west corner of Main and Wisconsin streets, and examine for themselves.

S. S. DAGGETT, Pres't.
A. W. KELLOGG, Sec'y.

COMMERCIAL.

Janesville Wholesale Market.

Reported for the Janesville Gazette, BY
BUMP & GRAY,
GRAIN AND PRODUCE DEALERS.

JANESVILLE, MAY 7, 1860.

Receipts of wheat were again quite light to-day, only about 1200 bushels being on the market during the day. Prices ranged at about Saturday's quotations, and notwithstanding the dull news from Chicago and New York were firm and closed steady. Receipts of coarse grains light, and prices unchanged. We think the light receipts is owing mostly to the farmers being busy planting their corn, as there must be a considerable quantity in their hands to be marketed, and with present prices they would undoubtedly bring it along were it not good weather for planting.

We make up prices as follows:

WHEAT—white winter 1,05a1,15; good to choice milling spring at 1,03a1,09; common to fair shipping, 99a1,02.

BARLEY—in good request at 45a58c per 50 lbs., fair to choice.

CORN—shelled, per 60 lbs., 42a44c; ear per 70 lbs. 30a35c.

OATS—advanced to 28a30 per bushel.

RYE—quotable at 60a65 per 60 lbs. None coming forward.

POTATOES—plenty at 30a40 per bushel for good to choice ones.

TIMOTHY SEED—scarce and in demand at 2.25a2.60 per 46 lbs.

BUTTER—plenty at 11a13.

EGGS—in fair demand at 7a8 per dozen.

HIDES—green, 6a6½; dry flint, 12a14.

FLOUR—spring at retail, 2.60; winter, 3.50.

POULTRY—chickens, 6a7; turkeys, 7a8.

THIS Glass, in transparency, strength and uniformity of plate, and in all other qualities sought for in a good article of glass, is equal to the best French manufacture, and is almost entirely free from breakage. The engagements we have entered into with the Messrs. Landgraff, enable us to offer their glass at lower prices than have heretofore been asked for the inferior grades of glass sold in this market.

Call and examine our stock before buying elsewhere and save yourselves from being humbugged by the French, or imposed upon by the venders of an inferior article of American glass. A. PALMER,

Non-Explosive Burning Fluid
USED WITH SAFETY & ECONOMY.
The Best in the Market.
Palmer's Drug and Tea Store.

WE have, for several years past dealt largely in BURNING FLUID, and have always, thus far, kept fully *up to the times*, in any improvements made in its manufacture. Nearly a year ago, in an appeal in favor of its more general use, based upon the fact that the raw material from which it is made, is mainly the product of our own farms, we publicly announced that there was, at the temperature at which it is generally used, "no explosive power whatever in Burning Fluid, *as now made by those who understand the business in which they are engaged.* That injury from its use was either the result of gross carelessness, or of undue alarm caused by a belief in its explosive power," &c. Since then we have manufactured and sold thousand of gallons to consumers in this city and vicinity, and if our assumption was an erroneous one, it would undoubtedly have been discovered ere this.

We are prepared to submit our Fluid to any test the public may call for, satisfied that, with ordinary care, *no safer, better or more agreeable light can be produced.* As we are indebted to no traveling "PROF. GREEN—O!" for the high state of perfection attained by us in its manufacture, we are, as usual, prepared to offer our Fluid at the *LOWEST MARKET FIGURES*, and to guarantee entire satisfaction in its use, or the money refunded. NOTICE TO CONTRACTORS AND BUILDERS.

Important Discoveries and New Arrangements!

THE subscriber has discovered upon his premises a splendid

QUARRY OF FREESTONE,

which promises to surpass anything yet found in the state, as well as add to the many already developed resources of our city,

A Beautiful, Cheap and Durable Building Material.

He has made arrangements to work this, together with the justly celebrated

Monterey Lime Stone Quarry,

on a scale equal to the demands of our enterprising citizens, and in order to accommodate his numerous customers, he has made arrangements to keep constantly on hand a large supply of

ATHENS MARBLE

(or Chicago stone.) He is now fitting up extensive saw and scouring mills, and other machinery necessary for working the same, at a great reduction from former prices.

He also wishes to call attention to the fact that sound cutting or dimension stone can only be found at great distances from the surface, and that the Monterey Quarry is the only one in this county that has been worked far enough to reach those formations that are imperishable when exposed to the action of air and frost.

He is also supplying his Quarry with Derricks to facilitate the handling and loading large stone, and is fitting up expensive wagons, carts and trucks, rigged with the most approved appliances for moving and delivering dimension stone of any size, from two to thirty feet square, and from six to twenty inches thick, or any required length up to one hundred feet, to any part of the city or on board of the cars.

He is prepared to furnish

Cut Stone

of every description.

PLAIN, MOULDED, CARVED OR POLISHED FLAGGING

of any required dimension.

Curbing, Paving, Ruble and Coursing

stone of the best quality in the state, all of which will be delivered at his Quarries or any part of the city, to suit purchasers.

In conclusion, he begs to assure the public that from the superior quality of his materials, and facilities for furnishing, he can and will make it to their interests to patronize the Monterey Quarries.

☞All Orders from the city or country will be promptly attended to.

NOTICE TO CONTRACTORS AND BUILDERS.

—:oxo:—

Important Discoveries and New Arrangements!

THE subscriber has discovered upon his premises a splendid

QUARRY OF FREESTONE,

which promises to surpass anything yet found in the state, as well as add to the many already developed resources of our city,

A Beautiful, Cheap and Durable Building Material,

He has made arrangements to work this, together with the justly celebrated

Monterey Lime Stone Quarry,

on a scale equal to the demands of our enterprising citizens, and in order to accommodate his numerous customers, he has made arrangements to keep constantly on hand a large supply of

ATHENS MARBLE

(or Chicago stone.) He is now fitting up extensive saw and scouring mills, and other machinery necessary for working the same, at a great reduction from former prices.

He also wishes to call attention to the fact that sound cutting or dimension stone can only be found at great distances from the surface, and that the Monterey Quarry is the only one in this county that has been worked far enough to reach those formations that are imperishable when exposed to the action of air and frost.

He is also supplying his Quarry with Derricks to facilitate the handling and loading large stone, and is fitting up expensive wagons, carts and trucks, rigged with the most approved appliances for moving and delivering dimension stone of any size, from two to thirty feet square, and from six to twenty inches thick, or any required length up to one hundred feet, to any part of the city or on board of the cars.

He is prepared to furnish

Cut Stone,

of every description,

PLAIN, MOULDED, CARVED OR POLISHED FLAGGING

of any required dimension.

Curbing, Paving, Ruble and Coursing

stone of the best quality in the state, all of which will be delivered at his Quarries or any part of the city, to suit purchasers.

In conclusion, he begs to assure the public that from the superior quality of his materials, and facilities for furnishing, he can and will make it to their interests to patronize the Monterey Quarries.

All Orders from the city or country will be promptly attended to.

Terms Cash.
